

Tillsonburg District Memorial Hospital receives award from Accreditation Canada

TILLSONBURG, ON (March 9, 2023) – Accreditation Canada has issued a formal letter congratulating Tillsonburg District Memorial Hospital (TDMH) on their recent Accreditation Award Decision, **Accredited with Commendation**, from the National Quality Standards Organization.

Accredited with Commendation means an organization *surpassed* the fundamental requirements of the Accreditation Program. Accreditation Canada has credited TDMH as a pioneer as it was the first hospital in Canada to participate in Accreditation through the new Qmentum Global Program. This partnership is an important innovation for the development of the new Accreditation Canada Qmentum Global program.

Statement from Nadia Facca, Our President and Chief Executive Officer, “I am so excited about our successes during this recent Accreditation Canada survey! Thank you to all of our team members for their commitment to quality and safety.”

Accreditation Canada is a non-for-profit independent organization providing national and international health care organizations with an external peer review process. By having external surveyors assess our services against national standards, hospitals and other organizations are better able to focus our quality improvement efforts. Accreditation Canada's programs and guidance have helped organizations deliver quality health care for over sixty years.

Accreditation is a continually evolving process, which enables organizations to evaluate and refine the quality of services through self-assessment and peer review. TDMH continues to provide the best care and experience for our patients and team members. TDMH is committed to monitoring and exceeding (where possible) Accreditation standards.

During a four-day site visit in January 2023, the surveyors could not say enough about the warm welcome they received by all, and the hospital's strong partnerships with other care partners and our community. They also noted the sense of pride displayed by staff and patients as they toured the hospital.

Everyone at TDMH is involved in Accreditation, from front-line staff, physicians, patient advisors, volunteers, and Board members. That is because TDMH is committed to quality and patient safety. This achievement could not have happened without the hard work and dedication of everyone at Tillsonburg District Memorial Hospital.

About Tillsonburg District Memorial Hospital:
